## THREE TESTIMONIALS THAT WE RECEIVED RECENTLY

Testimonial

RE; Maredo Triplex Mount overseeding heads

Royal Ashburn is the first Course in Central and Eastern Ontario to operate the new European Designed Maredo over-seeding heads for triplex greens mowers.

After a horrendous winter, the seeder has been a lifesaver. We have already double over seeded our greens and the results are unbelievable. Our greens that had winter damage are now a delight of solid stand of new bentgrass and it won't be long before our problems are history and our customers are happy. Our regular golfers are quite satisfied at our recovery also.

New science and technology has solved another of the golf industry's problems.

Wilson Paterson

President

Royal Ashburn Golf Club

Royalashburngolfclub.com

One of our dealers in Canada got a letter from Mr. Wilson Paterson from the Royal Ashburn Golf Club. He wrote how happy he, his team and the players are with the MAREDO GT 410 Vibe Spike Seeders after a horrendous winter. The result and recovery was unbelievable.

Above on the left a copy of the letter and on the right the result just short after they used the MAREDO GT 410.

*The GT 410 is a very popular overseeder as it is a quick, efficient and clean way of overseeding. The vibrating spikes create a correct hole and plant the seed at the same time.*

Another testimonial came from New Zealand.

Ingrid van Steenbergen contacted me 2 years ago, after she saw our ad just before the golf show in Melbourne. She wasn't able to come, but she was convinced that she needed these heads. Just 6 months ago she was able to buy a set, which she used 4 x since. We never met. Nevertheless, she wrote me the following email about 4 weeks ago:

***Hi there Marinus, just thought I would let you know I am very happy with the coring reels, we have used them at least 4 times and I can see they will be of great benefit to us. They are generating a lot of interest in our area and hopefully Brent Baber will be able to sell a few more for you. Many thanks Ingrid van Steenbergen, Napier Golf Club NZ***

*The GT 230 Core Dethatcher has become very popular this year, as people see the great advantages of the quick, clean and true-cut dethatcher. The turf heals much quicker and players don't complain anymore.*

The last testimonial is a quick note from one of my South African salesman, who has a customer, that already bought and uses the Maredo GT 230 Core Dethatcher. Recently he bought a set of GT 300 Vibe Smoother. And this is what he claims:

***Feedback from Hardus at Ebotse Country Club. "The Smoother is the best machine I ever bought".***

*The GT 300 Vibe Smoother is a smoother that smoothens and increases your greenspeed in a more natural way. It doesn't roll (which has the tendency to push things forward), but pushes vertically down, like would do with your foot.*
